Dear Investor,

We at NSDL are continuously striving to keep your investments active and safe, and hence please bear with us when we give you this gentle reminder on the nomination requirement.

As an account holder, you have the choice to either opt-in for nomination, where you nominate someone, or opt-out of nomination, where you declare that you are not nominating anyone. Nomination is a crucial facility that ensures the smooth and hassle-free transmission of securities to the nominee(s) with minimal documentation in the unfortunate event of the account holder's demise. In case nomination details are displayed as 'Not registered' under the 'know more about your accounts' (given at the end of this CAS), we kindly request you to click on the provided link below or access NSDL's online platform (https://eservices.nsdl.com/instademat-kyc-nomination/#/login) to opt-in for nomination. An audio-visual tutorial on Nomination is also available for your ready reference. You can either scan the QR code series or click on the link below to view and understand the comprehensive features of nomination.

NSDL Consolidated Account Statement (CAS)

Pursuant to the Interim Budget announcement in 2014 to create one record for all financial assets of every individual, SEBI had extensive deliberations with the Depositories, AMFI and RTAs of Mutual Funds (MF RTAs) to implement the aforesaid concept with respect to financial assets in respect of securities market. As a first step in this direction, it has been decided to enable a single consolidated view of all the investments of an investor in securities held in demat form with the Depositories as well as in Statement of Account (SOA) form with Mutual Funds (MF).

NSDL CAS is a single account statement consisting of transactions and holdings in investor's demat account(s) held with NSDL and CDSL as well as in units of Mutual Funds held in Statement of Account (SOA) form. The statement also includes insurance policies held in electronic form with NSDL National Insurance Repository.The statement enables investors to have a consolidated view of his/her financial assets and provide an insight of his/her portfolio across various asset classes. NSDL CAS provides investor an enriched experience of managing his/her portfolio effectively and benefit him/her in many other ways viz. better decision making, simplified monitoring, rich analysis of portfolio etc.
